Vol. 23

NEW HAZELTON, B. C., WEDNESDAY, JULY 23, 1930

No. 4

VOTE

J. C. BRADY

CANADA'S Next Premier

R. B. BENNETT

FOR

He will be, after Monday, July 28th, a supporter of the New Conservative Government under the Premiership of R. B. Bennett.

He will be one of the most influential members of the Bennett Government.

He will devote, as he has for the past four years, his entire time to your interests, in a most efficient manner.

He has no business affiliations which may influence his attitude when legislation vital to Skeena's interests are under discussion.

He can debate most effectively any question affecting the Skeena District in an intelligent manner in Committee or on the floor of parliament.

He is regarded by all members of the last House of Commons regardless of party one of Canada's most effective, capable and popular members.

His record for the last four years should convince you that he is the candidate to support and vote for on Monday, July 28th.

Sir Henry Fooled The Boys

Sir Henry Thornton's trip to Prince Rupert must have been a great disappointment to the Liberal workers in that city for it was confidently expected and freely predicted that the president of Canada's national railways was about to announce the definite location and the exact date of starting the work on the proposed hotel to be erected some day by the railway. It was thus that the Liberal workers were going to make the president descend to petty politics. Sir Henry gave Prince Rupert a stall by announcing that the favored site now is one they know they cannot get for at least a long time and at a big price viz., the old government building block on Third Ave., and Second Ave.

As much as Sir Henry might sympathize with the Liberal party he is not unwise enough to allow that party to make him their goat. He likes his job pretty well and he wants to work under the Bennett government as well as under the old King government. Prince Rupert is pretty well served by good hotels at the present time and the population of the north does not demand any million dollar hotel yet, neither would the tourist traffic at present justify such an outlay. It is well known that the tourist trade is seasonal and a short season at that. When conditions justify the expenditure the hotel will be built, but even Sir Henry refused to allow the Liberals to use him as a political football.

The Omineca Herald is \$2.00 per year

other claims in the same locality.

On the Tilon group the preliminary development has exposed an ore body of the average width of twenty feet, and for a distance of 1200 ft. The ore is a low grade copper, about 3%, but it also carries small values in silver and gold which make it somewhat attractive. It is the intention of the company to do some diamond drilling this fall and winter to determine the depth of the ore body.

On the company's other properties at the head of Gold Creek between Kleanza Lake and the Copper river, a gang is working on surface stripping and shallow shafts.

On the property held by the Copper River Exploration Co. there are great possibilities and the owners are going about the work in a scientific way and with as little noise as possible. It is the intention to develop some thing really worth while before going to the public with the glad tidings.

About a dozen men are working for this company and the number will be increased as soon as the engineer can get the work laid out for them. The snow was a month late getting away this year and the operations were thus delayed that long.

The Canadian Copper Mines Inc., is operating the Diadem group owned by B. Shannon of Usk. Mr. Doan is in charge and he is getting a lot of very effective work done. Early this season comfortable camps were built a few yards from the C. N. R. tracks and only a couple of miles east of Usk. The company holds under option the Diadem and also the Silver Mitt property some distance away from the Diadem. On the latter group two tunnels, both at great depth, are being run and if the ore is encountered as expected the mine will have a wonderful future and so will the village of Usk. The work is being done by a power equipment and rapid headway is being made.

Wedding Bells Greig-Thomas

A very pretty wedding was solemnized in Knox United Church on Wednesday evening of last week when Rev. H. Allen united in marriage Mona Alma Greig, second daughter of Mrs. Mary A. Greig to Everett Stanley Thomas, second son of Mr. Mrs. Charles Thomas, both of Terrace.

Mrs. Jas. Farquhar of Prince Rupert played the wedding march, and accompanied Mrs. S. N. Kirkaldy, sister of the bride, who sang "I love you truly" during the signing of the registrar.

The bride, who was given in marriage by her brother, Lawrence, was charming in a gown of georgette with lace yoke and crepe panel. Her veil of silk embroidered net was fastened to a bandeau with orange blossoms and pearl trimmings. She carried a large bouquet of white flowers featuring the early Victorian style.

The first attendant, her sister Helen, wore a gown of corn silk Canton crepe with hat and slippers in matching tones. Evelyn Thomas, second assistant, was becomingly gowned in Nile green Canton crepe, while Mrs. S. N. Kirkaldy, as matron of honor, wore a gown of shell pink corded silk with lace flounce and yoke of blending tone. The attendants all carried bouquets to match their gowns, made in Victorian style, and wore hats, gloves and slippers in blending shades. Little Jackie Kirkaldy acted as ring bearer and he wore a navy velvet suit with white satin blouse with ruffled collar and cuffs. The groom was supported by his brother Roy Thomas while Elmer Brooks and S. N. Kirkaldy acted as ushers.

The church which was beautifully decorated by Mrs. D. D. Munro, assisted by Mrs. Farquhar, was much admired. The bridal party, passing under an arch of staghorn moss and of daisies, artistically arranged, took their places between large pillars, the flowers arranged to blend with attendants' gowns. The pulpit was a bank of ferns and loopins, large bouquets of roses, honeysuckle and baby breath completing the delightful arrangements. The church was filled to its utmost capacity by friends of the contracting parties.

Following the service a reception was held at the home of the bride's mother at which relatives and a few bridal party received congratulations under an arch draped with monkey moss and white streamers, carnations and pinks.

The tea table was centred with a three tiered wedding cake embedded in white tulle with matching tapers and rose buds in silver vases. Refreshments were served by Miss M. Reid, Miss Patricia Gwyer, Miss Carman Smith, Miss Margaret Glass, Miss Adelaide Thomas and Miss Velma Greig, while Mrs. T. Brooks presided at the urn. The toast to the bride was proposed by Rev. H. Allen, the groom responding.

The bridal couple received many beautiful gifts, among them being an orthophone from the groomsmen. The bridal bouquets were the work and gift of Mrs. J. Gilbert.

On Friday evening a public reception was held in the G. W. V. A. hall and over a hundred guests were present. The church decorations were removed to the hall and made a pretty setting to the event. Mrs. Greig and Mrs. Thomas, mothers of the bride and groom, received the guests. A four piece orchestra provided a fine music for dancing and a very happy evening was spent by all.

Developing Ore At Usk Mines Steady Work

It is not many places in British Columbia today that can boast of any particular mining development or operations this year. This applies particularly to the north. But in the vicinity of Usk there is a good deal of work in progress. Several properties are being developed on a fairly large scale, and thus giving employment to quite a number of men.

The Columario Gold Mines Limited has been operating continuously since April and with considerable success. Two drills have been working, one shift, one on the No. 5 vein and in ore for a distance of 550 feet which was the face of the tunnel last week end. Work is being continued on that vein.

The second drill has been cross-cutting from the upper and the lower tunnels on No. 4 vein to connect with veins 3 and 5, and the results of this work have been very successful.

A few days ago the cross cut was finished and the drill has been moved to No. 6 vein on which it has drifted thus far some 90 feet and this drift will be continued for a distance of 700 or 800 feet, or it will be driven as far as possible.

Since the company started developing two years ago four drift tunnels have been run for distances varying from 500 to 700 feet and with from 300 to 500 feet of backs. These tunnels are all in commercial ore and the veins average in width from 1 to 6 ft. In places the ore is very rich, running up to \$200 a ton in other places it is equally low. The average per ton value will be around \$50.

The Columario Gold Mines Limited

will shortly have enough commercial ore developed to justify the installation of a fifty ton mill as a first unit. It is expected that the mill will be built this fall.

The president of the company, Mr. Hickey of Toronto, is a mining engineer himself. He is now at the property and will remain there for another week or two. He is very favorably impressed with the looks of the mine and feels confident that he has picked a winner this time.

The Copper River Exploration Co., which was incorporated last fall, and which has its head offices in the Vancouver block, Vancouver, with H. L. Batten, M.E., as consulting engineer, and secretary, has been very active in prospecting during the season in the vicinity of Usk. This company is at present holding the Tilon group of ten claims, all of which have been crown granted, and also some fifty

Minister From Hamilton Sees Mission Fields

Rev. Dr. Martin, pastor of St. Giles church, Hamilton, Ont., was a guest of Rev. T. H. Wright in Hazelton a day or two last week. He also called at the Herald office. Dr. Martin is one of the more brilliant and studious of the younger ministers in the east. He and members of his congregation are greatly interested in the home mission work of the church and it was members of his congregation who made it possible for him to make this trip to the outlying posts in Canada. He is making a very careful study of the mission fields and hopes to have some thing very definite to report to his congregation on his return. The mission work of the church is a serious one, especially at the present time when finances are not easily secured. It is possible that some permanent good may come out of Rev. Martin.

Everybody Sees

the ravages of the Forest Fire, but not everybody realizes that seventy per cent. of our fires in 1929 were preventable; in other words, they were due simply to carelessness. Pressure of public opinion has gone far to eliminate carelessness in other directions, but carelessness with fire is still amazingly prevalent

QUICK NEWS

W. L. Padden is driving a new car

Angus Kerr had his shoulder dislocated by a cayuse, but is around as usual.

Thursday was a real summer day and there was a good crowd of farmers a Round Lake picnic. It was a great success. The married men won the tug of war.

Pete Wilson was taking Jas. Smith and two children home from Smithers one day last week when the car rolled down the Smithers hill. The occupants were all pretty badly bruised, but it is not expected that anything serious will result.

Wife: "There's one thing about my mother, she's outspoken."

Husband: "Not by anyone I know."

Does a man know how to handle a baby," asks a writer. It depends on how old she is.

The Omineca Herald is \$2.00 per year

HE BROKE HIS LEG

Vic. Foley of the bank staff at Hazelton was admitted to the hospital on Wednesday with a bad break of the right leg. He and Mr. Hunter were out for their usual early morning ride and as they were about to cross the railway track at New Hazelton Vic's horses took another idea into his head and decided to return home. In the argument that followed between the rider and the horse the horse slipped and fell and Foley's leg was underneath. He will be laid up for some time as a result.

Ontario Man is Impressed By Prince Rupert

B. McClung of Trenton, Ont., was a guest last Tuesday of his nephew, C. H. Sawle. Mr. McClung, with his daughter, Miss Helen McClung, made the trip over the C.N.R. and by C. N. R. steamers to Alaska, Dawson and to Atlin. On the return trip they will stop a day or so at Jasper Park. As a tourist Mr. McClung greatly enjoyed the trip every hour and he would not commit himself as to which section he was most impressed by. But as an observer of business and future possibilities he was all for Prince Rupert which he considered by far the best of all ports or towns north of Vancouver. The Alaska towns did not impress him favorably at all. After a stop at Jasper Park Mr. McClung and daughter will meet Mrs. McClung at Edmonton and continue their journey home.

Terrace Notes

Mrs. G. W. Nickerson of Prince Rupert is a guest of Mrs. E. T. Kenney. Miss Fanny McLaren and her guest,

Miss E. Gilker, left Sunday for Prince Rupert to resume their duties at the hospital.

Miss Hilda Morrison of Brandon, Man., is a guest of her uncle, Thomas Brooks.

The Imperial Oil Co. are erecting a new warehouse and tank near the railway station, F. H. Betalt being in charge of the work.

A rotary converter for the X-ray machine at the hospital house has been installed and the machine is now ready for use. It will assuredly meet a great need in the district.

The quarterly meeting of the Board of Trade was postponed to the first Tuesday in August on account of the election. A raspberry social is to be the feature of the occasion.

Uniformity Is a Big Point

Its uniformity makes Pacific Milk particularly helpful to mothers. Babies are fed by formula and when Pacific Milk is given the infants the formula need not be changed. This is one of the reasons doctors recommend this good milk.

FLYING TO RUPERT

One of the ordinary ways of spending a few idle hours these days for the poor tired business man of Alaska is to hop in a plane and hope over to Prince Rupert and return via the big steamers which leave Rupert now almost every day. On Saturday morning last several business men made the trip by plane in 46 minutes. They had a good half day in Rupert and left for Alaska on the Prince Henry at 2:30 in the afternoon.

Terrace News

The annual meeting of the Lakelse Valley School District was held on the date set aside by the school act. E. Asserude was elected to succeed H. Frickman whose term had expired, and Mr. Asserude was also appointed secretary in place of Will Robinson. Another very important matter to the school district was the enlarging of the school boundry by one third.

On Monday night next, July 28, and election night, the election returns will be given at the Terrace Theatre hot off the wires. There will also be a special picture show that night when Buddy Rogers will appear in 'Varsity. This is a remarkable comedy. The regular prices will prevail. Come early as the seating capacity will probably be pretty well taken up. The show and the election returns will start at 8.15 sharp.

Alex. Grey of Smithers spent a week or so at Lakelse Hot springs and he said on Friday when returning to his home that he felt a great deal better. He is quite an enthusiast over the hot baths and the sun shine on the lake.

Three of the Terrace teachers have resigned, viz., A. W. Holmwood, principal of the public school, Miss Elsie Reid, principal of the high school, and Miss Alice Davis of the junior department. All of them had hosts of good friends in the district and they will be much missed.

Both the Board of Trade and the local commissioners have made representations to the railway people for the widening of the lane from Gordon's hotel to the Tourist hotel, and there are hopes that the results desired will be speedily attained.

A numerous worded petition was laid before the commissioners at their last meeting praying for the opening out of Atwood street from the Tourist hotel to Lakelse avenue. Mr. Martin, proprietor of the Tourist hotel,

had the roadway cleared and grubbed and only the necessary grading is now called for. The commissioners promised to place the question at the head of their requirements for the fall.

CANADIANS EATING MEAT

The total consumption of meat in Canada has increased 20% and the per capita consumption has increased 8% since 1920, the annual consumption now exceeding a billion and a half pounds, or 156 pounds per capita according to a report issued by the government. The popularity of pork has risen rapidly during the past ten years and slightly more beef has been consumed, but the demand for mutton and lamb has declined. The per capita consumption of pork, 65 pounds in 1920 is now 82 1/2 pounds, and that of beef, 69 pounds in 1920 is now 65

Short Stories

Close to Home

After spending some two months or more in the south visiting with relatives and friends Mrs. Wm. Grant returned to her home in Hazelton on Saturday evening. She made the trip up the coast on the Prince Henry and is a great booster for the Canadian National's new ship.

Hugh A. Harris and his son Crawford arrived last week from Vancouver to spend the summer months here.

Mrs. J. D. Boulding of Smithers spent the past week a guest of Mrs. F. A. Goddard. She returned to her home on Tuesday. She was accompanied to the interior by Miss Jean Burns who will spend a few days with friends in Smithers.

Bridge Engineer Williscroft arrived in Prince Rupert last week and has started work on the bridge across the Galloway Rapids. This bridge is to connect the main land and the island and is part of the Pacific highway plan. The bridge will be completed during the present year.

Ross & Howard of Vancouver were awarded the contract for the big steel truss for the Hagwilget bridge across the Bulkley River adjacent to New Hazelton. They were the lowest tenderers. Thus all the material for the bridge is being produced by British Columbia.

Oscar Legaut and Alfred Irwin, two employees of the Fraser Lake sawmill were killed when their car overturned and went down a bank near the east end of Francois Lake. Legaut was dead when found the day following the accident and Irwin lived until he was taken to the Prince George hospital and for four hours after.

Don't forget the Parcel Tea under the auspices of the W. A. to the Hazelton Hospital on the United Church lawn to be held Saturday next at 3 p.m. in aid of the Hospital. Each parcel 25c and refreshments 25c.

A dance will be held on July 28 in the Community Hall, New Hazelton in aid of the school. Good music will be furnished. Admission—Adults \$1.00, children 50c.

Dr. H. C. Winch paid a visit to the interior the first of the week and attended a political meeting at Topley.

There was a meeting of New Hazelton citizens in the community hall on Tuesday evening when arrangements were made for a dance in the New Hazelton hall on Monday night next, election night. Everyone is invited to attend and enjoy themselves after the heat of the battle.
